

Silver Earpieces

Impact's Silver Series audio accessories are designed specifically with budget in mind and intentionally less robust than our Gold and Platinum products, yet still offers fantastic audio quality with reliable components.

The Silver Series is the ideal accessory solution for light duty applications including retail, big box stores, restaurants, businesses and commercial environments.

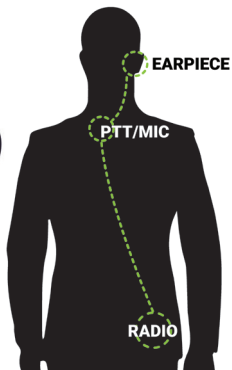

All our Silver earpieces feature:

- Multiple on-the-ear and in-the-ear earpiece styles for left and right ears
- Compact Push-To-Talk (PTT) switches for covert use or easy concealment
- Available for most new and discontinued single and 2-pin radio connector types

Available Wire Configurations

Shown with AT3 earpiece

S1W

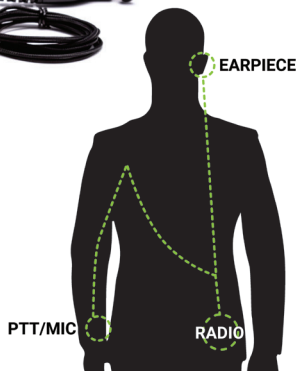

Best suited for those that only need to wear the Push-To-Talk (PTT) and microphone on their shirt collar or lapel; ideal for warm weather locations or users wearing short sleeves.

- Available in 6 different, "hard-wired" earpiece styles
- Available in standard TPU cabling or Fiber Wire Nylon Cloth cabling for added comfort and flexibility
- Available with our standard small form factor Push-To-Talk (PTT) and microphone or with our incredibly compact and covert MICRO-PTT (S1W-MP)

Shown with EH1 earpiece

S2W

The S2W 2-wire offers users the option of holding the Push-To-Talk (PTT) and microphone in their hand or worn on their shirt collar. The 2-wire is more covert and less obtrusive than the 1-wire cable configuration.

- Available in 6 different, "hard-wired" earpiece styles
- Available in Fiber Wire Nylon Cloth cabling for added comfort and flexibility
- Comes with straight cables for easy concealment underneath clothing or uniforms
